

Merit Reporting Information

It is not necessary to report attendance at regular Club meetings or to report your entries in print/slide competitions. Reporting participation in Nevada Camera Club functions is also not necessary, as the various Committee Chairpersons will report this information to the Merit Committee.

Merits can be earned by participating in nearly any kind of photographic activity. Publication or exhibition of your photos can also earn merits. Please be very specific, i.e. dates, locations, etc. in describing those photographic activities that you participated in during the month.

Additional information may be obtained by contacting a member of the Merit Committee.
